SUMMARY

AI/ML enthusiast with hands-on experience in building machine learning models and working with real-world datasets. Skilled in data preprocessing, feature engineering, and model evaluation using Python and ML libraries. Passionate about learning new AI technologies, analyzing data, and building practical AI solutions.

SKILLS

Languages: Python, Java

AI/ML: Machine Learning, NLP, Deep Learning

Libraries: TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV

Concepts: Data Preprocessing, Feature Engineering, Model Training

Other: Data Analysis, Problem Solving

EXPERIENCE

- **React Native Developer Intern — DiGrows** 2025
Certificate
 - Built cross-platform mobile applications using React Native with real-time API integration
 - Identified bugs, debugged issues, and improved application performance
 - Collaborated with team members to ensure code quality and reliability
 - Debugged issues, optimized performance, and improved application reliability

PROJECTS

- **AuthenTrack - AI-Based Attendance System** Dec 2024
GitHub | Live
 - Developed AI-based attendance system using face recognition models
 - Collected and processed image datasets with preprocessing using OpenCV
 - Trained and evaluated models using TensorFlow for real-time prediction
 - Collaborated with team members to analyze data and improve model performance
- **SheHelp - AI Healthcare Platform** 2025
GitHub | Live
 - Developed machine learning model for PCOD/PCOS prediction using structured datasets
 - Performed data preprocessing, feature engineering, and model evaluation
 - Improved model performance through experimentation and optimization
- **KrishiOne - Grocery App** Aug 2025
GitHub
 - Built full-stack grocery application using React Native, Node.js, and MongoDB
 - Implemented cart, checkout, and real-time data handling
 - Debugged issues and optimized backend performance

ACHIEVEMENTS

- **2nd Position - Dotslash Hackathon** Nov 2024
Certificate
 - * Developed AI-based health monitoring system with NLP chatbot, improving process efficiency by 70%
- **Research Publication - Cybersecurity** May 2025
Certificate
 - * Published research on ML-based detection and prevention of social engineering attacks in IJPREMS journal
